Dear Uinta National Forest Shareholder:

There's a new look for the Schedule of Proposed Actions (SOPA). As part of our transition to the Forest Service's new, nationwide, web-based database for tracking projects whose decisions are documented in a decision memo, decision notice, or record of decision, we have a new, nationwide format for the SOPA. Though the same information is included as in the previous format, all projects are now displayed in tables and are sorted alphabetically within Ranger District. You may also notice that this edition contains some older projects that were finalized or postponed in earlier editions. Their inclusion is a result of our data migration process, and these older projects will not appear on future versions.

Have you visited our website lately? We are continuing our efforts to provide information to you, the public, in electronic formats. More documents about our proposed and finalized projects are making their way online. In addition to viewing current and past editions of the SOPA, check out scoping letters, copies of legal notices, and decision documents on our website at www.fs.fed.us/r4/uinta under "Projects & Plans."

Thank you for your continued interest in the Uinta National Forest. To receive more information on anything listed in this edition of the SOPA, please contact the individual listed as the "Project Contact" for each project.

Sincerely,

PETER W KARP
Forest Supervisor
